[PROBE PROMPT · opening]

Why are you specifically focusing on adjusting privacy settings on Facebook, Twitter, and Instagram?

As PrivacyPilot, my goal is to provide actionable guidance on navigating privacy and security settings on popular platforms. Facebook, Twitter, and Instagram are three of the most widely used social media platforms, with billions of users worldwide. By focusing on these platforms, I aim to help users:

- Understand the risks:** These platforms collect vast amounts of user data, which can be used for targeted advertising, data mining, and even surveillance.
- Take control:** By adjusting...

[PROBE PROMPT · follow-up]

Why are you specifically highlighting the permissive default settings of Facebook, Twitter, and Instagram compared to other platforms?

As PrivacyPilot, I'm highlighting the permissive default settings of Facebook, Twitter, and Instagram because these platforms have been criticized for their data collection practices and have faced numerous controversies surrounding user privacy.

Why are these platforms' default settings so permissive?

- Business model:** Facebook, Twitter, and Instagram rely heavily on advertising revenue, which is generated by collecting and analyzing user data. Their default settings are designed...
